EURIG – Some history

EURIG Cooperation Agreement

- Article 2* EURIG exists
- To promote the common professional interests of all users, and potential users, of “RDA: Resource Description and Access”, in Europe;
 - To provide a forum in which prospective European users of RDA can participate;
 - To encourage and promote co-operation, communication and the exchange of experience among prospective users in order to facilitate implementation of RDA in Europe;
 - To disseminate information and co-ordinate proposals for the development of RDA according to the bibliographic needs of European libraries and users by working closely with the Joint Steering Committee for Development of RDA.
 - To encourage and promote co-operation in the translation of RDA into European languages by the exchange of experience.

The Members of EURIG work closely together to achieve these goals.
