

Alexander König (CLARIN ERIC),
Egon W. Stemle (Eurac Research)

CLARIN is a pan-European research infrastructure with a network of almost **70 technical centres** from more than **20 member countries** providing easy access to **digital language data** and **tools**. It provides a **single-sign-on** environment, a common resource **discovery portal** and a distributed **knowledge infrastructure** of 28 Knowledge Centres, one of which is the CKCMC.

CLARIN portal

Get an example-based impression of what's currently available

Depositing services

Store language resources in a sustainable repository at a CLARIN centre

Virtual Language Observatory

Discover language resources using a faceted browser or a map

Easy access to protected resources

Get easy access to protected resources, with your institutional username and password.

Language Resource Switchboard

Explore and analyze language data with a wide variety of tools

Virtual Collections

Create your own digital bookmarks, ideal for citing data sets.

Language Resource Inventory

Submit and access information about language resources relevant to your research.

Content Search (prototype)

Search different corpora with a single search engine

Questions & Answers

Searching for a specific data set or application? Wondering how CLARIN can assist your research? Feel free to contact us!

The CKCMC offers expertise on language resources and technologies for Computer-Mediated Communication and Social Media. Its basic activities are to

- Give researchers, students, and other interested parties **information about the available resources, technologies, and community activities**
- **Support** modifying or **publishing relevant resources and technologies** and **organize training activities**
- Support and facilitate community-building.
