

Definition of Holding

What is a Holding? What is the scope of Holdings? If we are going to build an Holding-Ontology, we have to define this term.

ISO 20775

"Group of data elements describing one institution's copies of a bibliographic resource or group of like or similar bibliographic resources"

Suggestions

- Carsten: A description of one agents inventory information and/or access information for an item.
- Jakob: A holding is a particular copy of a document that is held by, provided and/or made available by someone.
